**JESÚS ENRIQUE SEILER VELASQUEZ**
RUN : 26.439.663-8

[in] **Civil Engineer / System Analysts**

Profile web: CV Jesús Seiler

PERSONAL INFORMATION

- 👤 30 años
- 📍 Chile, Región de los Lagos (X Región) , Puerto Montt
- 🟢 +56 953292612
- ✉️ **ichbinseiler@gmail.com**

PERSONAL SKILLS

- **English:** Advanced (written and spoken).
- **Technology and Automation:** Hands-on experience with tools like SAP, Salesforce, and Rocketbot RPA, with basic knowledge of web and application development.
- **Management and Analysis:** Skilled in project management, data analysis, and process optimization.
- **Interpersonal Skills:** Strong capacity for self-learning, teamwork, and customer service orientation.
- **Adaptability:** Proven experience in diverse projects, including DevOps implementation, quality monitoring, and process automation.

PROFESSIONAL PROFILE

Civil engineer transitioned to IT, with a degree as a **Technical Systems Analyst** from AIEP. Experienced in **full stack web development** and proficient in **JavaScript, HTML5, CSS3, Spring Framework, React, Node.js,** and relational databases.
I have participated in the implementation of **ERP projects** with platforms like **Apache OFBiz, DMO, and SAP**, and have worked on **process automation** with **Rocketbot RPA** and **DevOps practices** using **Jenkins, Docker, and SonarQube**. My profile includes skills in **data analysis** and **project management**, aligned with **ISO 9001, 14001, and 45001** standards. I stand out for my **adaptability**, **self-learning**, and **results-oriented** approach.

WORK EXPERIENCE

03/08/2023 – PRESENT   *SYSTEMS ANALYST / ADMINISTRATIVE - LOGÍSTICS*
Opciones SA - Puerto Montt

- Developed and maintained the ERP System Apache OFBiz using Java Groovy, Java FX, and Apache FreeMarker for template customization.
- Modeled and analyzed processes with UML and optimized workflows using Bizagi.
- Managed databases with H2 and Microsoft SQL Server, applying knowledge of JavaScript, jQuery, Bootstrap, CSS, and HTML5 for interface design and layout.
- Prepared and controlled internal documents such as sales notes, contracts, dispatch records, and generated reports for warehouse operations.
- Contributed to process improvement and automation projects, ensuring efficiency and compliance with organizational standards.

15/07/2019 – 08/07/2023   *SPECIALIZED OPERATOR / DMO – LOGISTICS TRANSACTIONS*
Nestlé Chile SA - Llanquihue

- Optimized inventory and stock management using advanced SAP transactions, improving accuracy in logistical records.
- Implemented and trained the team on management tools like POKA, DMO, TPM, and NCE, increasing operational efficiency.
- Designed automated solutions with Microsoft 365, including spreadsheets for silo calculations and shift management, enhancing administrative productivity.
- Supervised manufacturing processes with specialized machinery, ensuring compliance with quality and safety standards.
- Prepared monthly production reports using DMO, supporting analysis and strategic decision-making.

Laboral Reference : Nelson Santelices – Nestle Llanquihue / Cancura
